PROFILE

Motivated and self-driven programmer and ethical hacker with a strong background in cybersecurity, AI, and software development. Began programming at age 11, accumulating over 230 hours of structured learning from academies and competitions. Currently pursuing an AI diploma at MUC University while still in high school. Recognized nationally and regionally for achievements in robotics and cybersecurity.

SKILLS

- Programming: Python (advanced), Flutter, C++, HTML, CSS, JavaScript, PHP, SQL
- Cybersecurity: Ethical Hacking, Offensive & Defensive Security
- AI & Robotics: Machine Learning, Deep Learning, Data Science, Arduino, Generative Robotics
- Tech Repair: Phone diagnostics and repair
- Soft Skills: Team collaboration, fast learning, public speaking

EDUCATION

alison diploma in python fundamentals

MUC University - Diploma in Artificial Intelligence (2023-2025)

Innovators Academy - Programming Fundamentals, Flutter, Python, Web Dev, AI, Robotics
(2019-2023) Semicolon Academy - Offensive Cybersecurity (1-year program)

Steam Center (Arabian Olympiad) - Defensive Cybersecurity (2024) & Python (2025)

Jehad Al-Benaa Center - Phone Repair Certification (2023)

Al Mahdi School - Grade 10 Student and still in learning

ACHIEVEMENTS

1st Place, MC2 Robotics Innovation Competition - Lebanon

2nd Place, ARC Competition - National-level AI/Robotics

2nd Place, AIO Competition (Arab World) - AI & Python

13th Place, Arabian Cybersecurity Olympiad (AIO) - Defensive Security Category

PROJECTS & COURSES

- AI & Machine Learning: Built projects using neural networks & deep learning models
- Flutter App Development: Created multiple cross-platform apps using Dart & Flutter (innovators app)

- robotics projects: esp marauder , alzheimer , anti sleeping while driving , anti drowning system,drone jamming
- Web Development: Full-stack web applications (HTML, CSS, JS, PHP, SQL)
(sho-3am-yseer website , 3dprinting site, personal portfolio)
- Phone Repair Intern: 2-month hands-on repair shop experience
- Cybersecurity Labs: Practical simulations in both offensive and defensive security
